MACON

Two way-faring boys left Sedalia, their home, about two weeks ago with the intention of going to the harvest fields in Kansas, but after arriving at Kansas City, they got a faint heart and decided to return home. They intended to board a Missouri Pacific freight train but got on a Santa Fe freight and landed in LaPlata Monday evening of last week. They walked south a little ways and sat down on the rail and both fell fast asleep. One rolled off of the right-of-way while the other, Harold Thomas by name, was near the rail. Killed His Wife

Tom Yancy, col., who for quite a period of time had been the trusted driver for Geo. Lay's Coal Yard killed his wife, Laura, in Moberly last Saturday night.

It seems that Tom was jealous and had quarreled with his wife on Friday evening and on Saturday morning went to Huntsville and got drunk. Laura, fearing violence on his return made ready to go to Moberly on No. 12. Tom returned on No. 53 and seeing his wife board No. 12 followed her. Arriving at Moberly they quarreled about the streets until about 6 o'clock he drew a razor and cut her throat and she was dead within two minutes.

The murderer made his escape and has not been apprehended as yet. There have been numerous floating rumors that he had been caught, that he had killed himself but they are without foundation.

Laura Yancy was a quiet, hard working woman and was generally liked by the whites and her own race. The body was brought here Sunday and on Monday morning taken to Armstrong for burial. She has four children all grown but one, a son about 13 years of age.—Democrat.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building tonic, free from alcohol or any harmful drugs. Try it.
